

### Rock-Net

Rock-Net is a newly produced hexagonal iron wire netting with double-twist weaving and thick wire gauge. Because of its strength and flexibility, this net has been often used to prevent rocks and debris from falling on to roads and railways.  
 This solution can also help to establish vegetation. The rock-basket and rock-mattresses made with this net are widely used such as river training; lining of steep slopes; lining of canals and dams; bridge pillars protection etc.

### Advantages

**Ecology:**  
 As this net allows the growth of vegetation and maintains the existing environment, it provides attractive and natural building blocks for decorative landscaping.

**Economy:**  
 As only little foundation preparation, no costly drainage provision, little maintenance. This net is made more economical than rigid or semi-rigid structures.

**Flexibility:**  
 This is the biggest advantage of rock-net. The double-twist hexagonal mesh construction allows it to tolerate differential settlement without fracture.

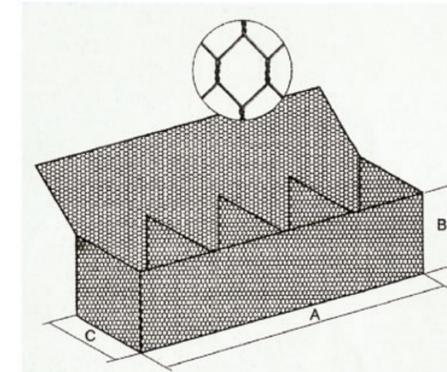

**Strength:**  
 The thick wire and double-twist weaving enable it available to withstand and absorb the forces generated by retained earth or flowing water.

**Durability:**  
 The net is a heavy monolithic gravity unites able to withstand earth thrust. Its efficiency increases instead of decreasing with age since further consolidation takes place as slit and soil collect in the voids and vegetation establishes itself.

Rock-Mattresses

## Outdoor Dog Kennel & Pet Cage Chain Link Panels

- Pre-assembled panels connect easily with panel clamps pls(Included)
  - Gate includes lath
  - Round tube construction accepts kennel covers
  - Hot dipped galvanized for rust prtction
  - Tension rod around perimeter for added per security
- Size: 4'H X 6'W pannel&gate  
 4'H X 6'W pannel  
 6'H X 5'W pannel &gate  
 6'H X 10'W pannel&gate

## Dog Kennel Box Kit With Cover Installed

- Easy to assemble
  - Provides rain and sun protection for pets
  - Black(metal gay)powder coated square tube frames
  - Tarp roof with gable end coverage
- Size: 6'H X 4'W X 4'D  
 6'H X 4'W X 6'D  
 6'H X 4'W X 8'D

## Pet Crate

### Product Information

#### Description

- Strong, secure, and resilient, perfect for crate training dogs
- Sliding bolt latches allow for convenient, secure, and easy access
- Stays well ventilated and includes a removable, easy-to-clean plastic pan
- Features a durable rust-resistant black electro-coat finish
- Note: For proper sizing, determine your dog's potential full grown adult size and choose a crate that will be 4-in taller than the top of your dog's head
- Includes a divider panel to adjust the crate living area as your puppy grows
- Medium size pet crate
- Assembly required

### Specifications

Type	Crate
Material	Plastic and wire
Recommended Pet Size	Intermediate (41 - 70 lbs.)
Color/Finish	Black
Collapsible	Yes
Assembled Length (Feet)	2.5
Assembled Width (Feet)	1.75
Assembled Height (Feet)	2
Assembled Weight (lbs.)	21
Color/Finish Family	Black
Warranty limited	1-year
